

Play It Safe!

When you are around dogs, remember these safety tips:

- Stay away from dogs that are not accompanied by an adult.
- Always ask the owner for permission before you pet their dog.
- Stay away from dogs that are sad, mad, or just unfriendly.
- Never go near a dog that is behind a fence or in a car.
- If a stray dog approaches you and there are no adults around, stand very still like a tree. Never run from a dog.
- If you are on the ground and a stray dog comes near you, lay very still like a log. Never run from a dog.
- Stay away from a dog that is eating, chewing a bone, playing with a toy, sleeping, one that has been injured, or a mother dog that is feeding her pups.
- Never attempt to hug a dog around the neck.

Always ask the owner before petting a dog.
