

# Play It Safe!

## Top Internet Safety Tips:

- Always have an adult present when using the Internet. Ask an adult to show you Web sites that are safe AND fun!
- Never give out any personal information such as your full name or photo, passwords, home or school address, or telephone number online.
- Never plan to meet someone face to face whom you've been introduced to online.
- Always tell an adult right away if you see something online that is inappropriate or talk to someone online that makes you feel uncomfortable or scared.
- Always ask an adult before opening emails from people you do not know or before downloading or installing anything on your computer.

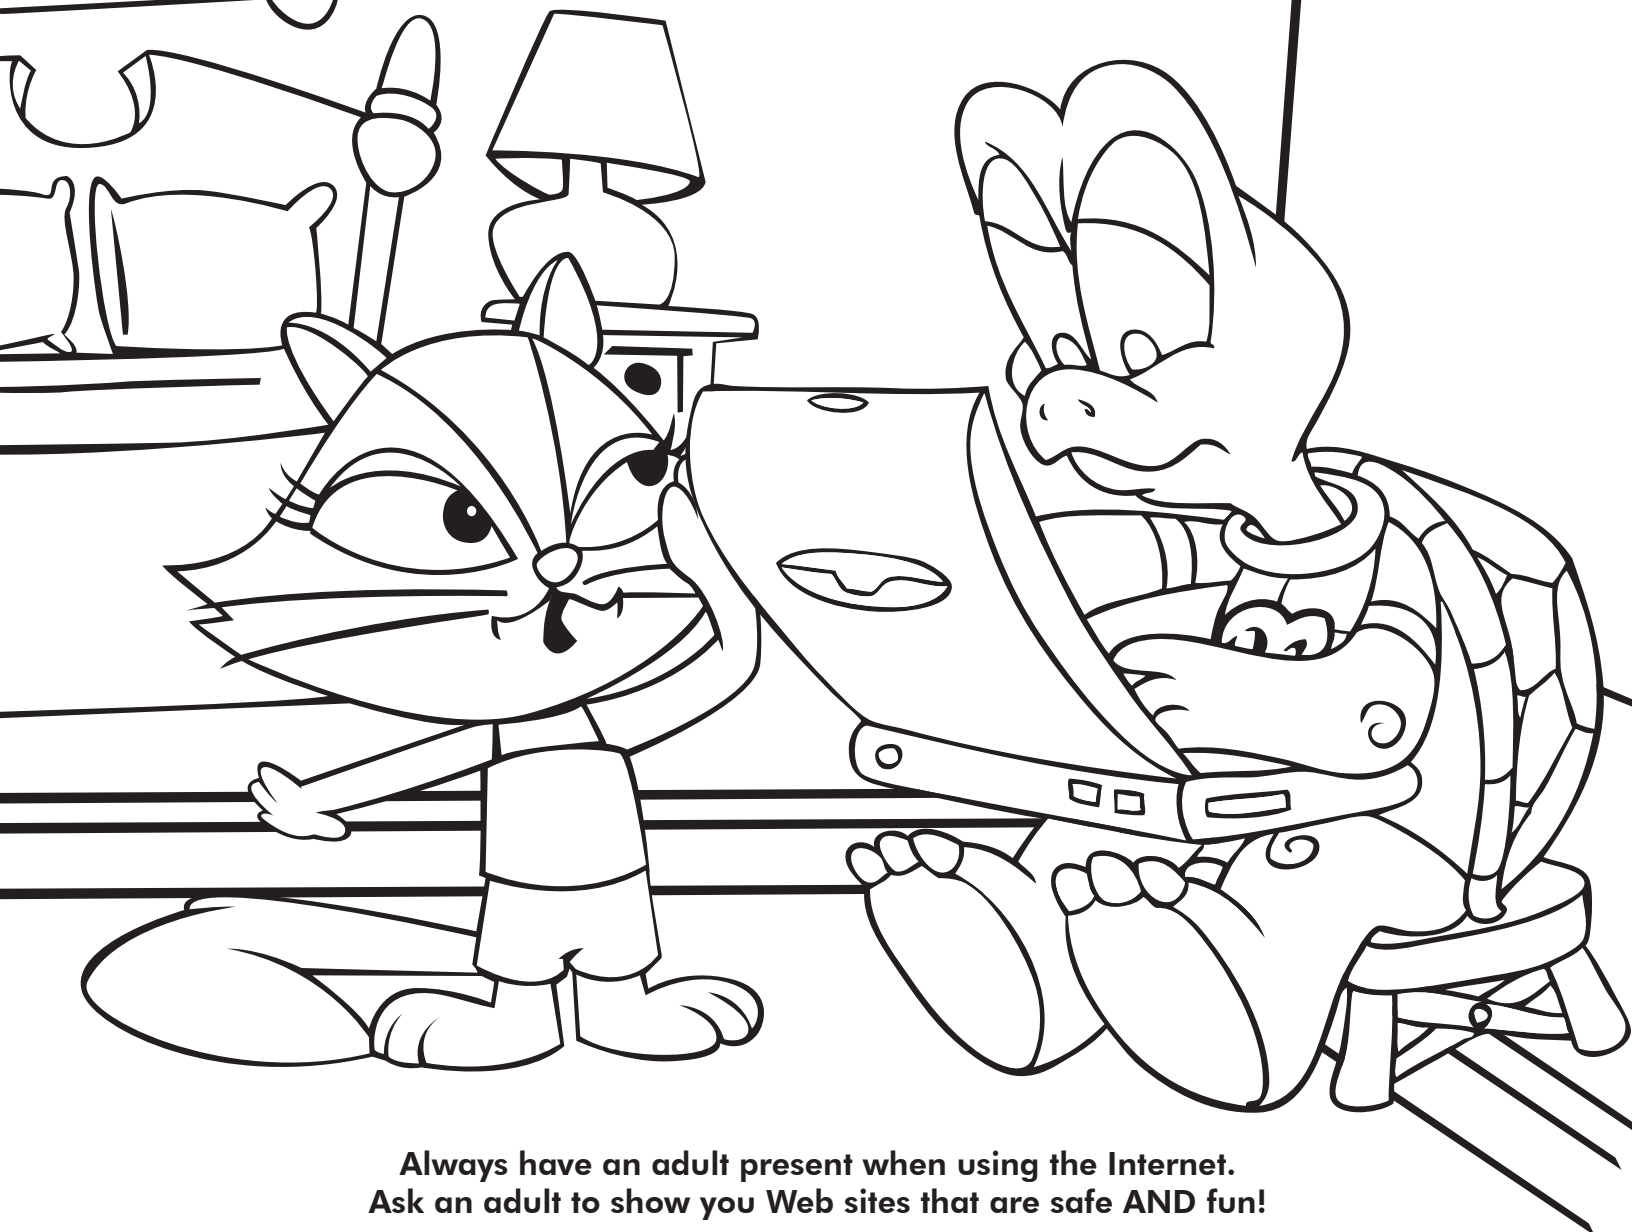

ENOUGH • IS • ENOUGH

Making the Internet Safer for Children and Families
